Jaipur, Rajasthan, India • +91-7737257861 • shlokchaturvedi08@gmail.com • linkedin.com/in/shlok-chaturvedi • github.com/shlok-ch

PROFESSIONAL SUMMARY

Detail-oriented B.Tech Computer Science undergraduate at JK Lakshmipat University with strong expertise in Python, MySQL, and Data Structures. Experienced in machine learning, database design, and data analytics. Proven ability to handle large datasets (40M+ records) and build scalable solutions. Seeking internship opportunities in software development, data analytics, machine learning, or FinTech.

EDUCATION

B.Tech in Computer Science — JK Lakshmipat University, Jaipur **2024 – Present**

Relevant Coursework: Data Structures, Algorithms, Database Management Systems (DBMS), Programming, Finance

Status: Undergraduate Student

TECHNICAL SKILLS

Programming Languages:	Python, C
Databases:	MySQL, Relational Database Management Systems (DBMS)
Computer Science Core:	Data Structures, Algorithms, DBMS, Object-Oriented Principles
Data & Machine Learning:	Machine Learning, Data Analysis, Large Dataset Processing
Tools & Technologies:	Streamlit, Pandas, NumPy, Git, GitHub, SEO, Artificial Intelligence Tools

PROJECTS

PathFinder Pro — Machine Learning / Traffic Forecasting **Jan 2026**

- Built an intelligent navigation system using 40M+ traffic records to forecast congestion and enhance route planning.
- Applied machine learning models for congestion forecasting and predictive traffic pattern analysis.
- Processed and structured large-scale datasets to optimize route prediction efficiency.

Campus Access and Compliance System — Database Management System **Apr 2025**

- Designed a normalized relational database schema to track campus vehicle entry, exit records, and compliance violations.
- Automated rule-based penalty calculations, significantly minimizing manual verification effort and errors.
- Authored complex SQL queries and views for administrative auditing, reporting, and vehicle monitoring.

StockSense — FinTech & Market Trend Analysis Dashboard **Feb 2026**

- Developed an interactive equity market analytics dashboard utilizing Streamlit and Python for technical analysis.
- Integrated Yahoo Finance API (yfinance) to ingest and visualize historical market price trends and indicators.
- Implemented data manipulation pipelines with Pandas and NumPy for moving averages and price distribution metrics.

CERTIFICATIONS

- **Global Entrepreneurship** — Hanyang University
- **Social Media Content Strategy** — Adobe
- **Google SEO** — University of California
